

Mobile Broadband 12 Months

CRITICAL INFORMATION SUMMARY

INFORMATION ABOUT THE SERVICE

SERVICE DESCRIPTION

Mobile Broadband is a postpaid service that delivers Internet access over the Optus 4G Plus Mobile Network for use within Australia.

Commander Mobile Broadband plans can be activated on new services only. Existing services cannot be transferred from other providers.

MINIMUM CONTRACT TERM

12 months.

KEY DETAILS

Mobile Broadband 12-month plans allow you to use the Internet over a 3G/4G mobile network connection utilising your own compatible device.

Your minimum Monthly Access Fee includes an amount of Data as specified in the table below. Both uploads and downloads are counted toward your Included Data.

Inclusions are for usage generated whilst in Australia to a service within Australia only. Unused inclusions expire at the end of each billing cycle. Additional charges apply for excess data usage.

You may change to a higher plan at any time during your minimum contract term, without penalty fees. To change to a plan with a Monthly Access Fee lower than the plan you originally signed up to, whilst in contract, you are required to pay out the applicable Early Termination Fees.

HARDWARE REQUIREMENTS

Mobile wireless-enabled hardware is required to use this service.

4G network access is only available on this plan if used with a device that is compatible with Optus LTE mobile network frequencies: 700/1800/2100/2300/2600 MHz.

Use your own network compatible device or purchase a new one from Commander. Hardware may be purchased separately with a Monthly Repayment Option (MRO) over 24 months (i.e. 24-month plan contract applies) or paid for Outright on your next bill.

SERVICE AVAILABILITY

The service is not available in all areas and the service speed you experience depends on a number of factors, including your equipment, the quality and location of your mobile coverage, and the applications that you are using.

Both 3G and 4G mobile network coverage is subject to availability in some areas.

SERVICE LIMITATIONS

Commander Mobile Broadband delivers national data access only. Calls, SMS, MMS, Voicemail and International Roaming are not supported, therefore, the service cannot be used overseas or for non-data traffic.
