

Complete Biz Bundle

CRITICAL INFORMATION SUMMARY INFORMATION ABOUT SERVICE

SERVICE DESCRIPTION

The Complete Biz Bundle combines a Commander Phone Essentials Desk Phone or Cordless Hosted Voice service with an Unlimited Internet service, offered over the copper network either using our own infrastructure or infrastructure supplied to us by our wholesale partners.

MINIMUM CONTRACT TERM

36 Month

BUNDLING ARRANGEMENTS

By bundling 2 services you receive, a discount off the total Stand-alone monthly access fees for the services bringing the total monthly access fee of \$99. Both services must be active for the discount to be applied. If you cancel or transfer away any active service, the monthly discount will no longer be available and your minimum monthly access fee will revert back to the monthly Stand-alone charge per service. Commander Phone Essential Desk Phone or Cordless \$39.00 and the Unlimited Internet plan \$79.00.

KEY DETAILS

Commander Phone plans provide your business with an Office Phone service delivered via your Internet connection, also known as VoIP or IP telephony, so you can make and receive phone calls. In the event of a power outage, your Complete Biz Bundle services will not work unless you maintain a back-up battery. Priority Assistance is not available on this service. Commander Standard Form of Agreement and Acceptable Use Policy applies to this plan, the terms of which can be found at commander.com.au/customer-terms. This plan is subject to availability at your location.

Your current plan could overlap with the rollout of the nbn in your area. NBN availability can be checked using our Rollout Map commander.com.au/support/internet-bundles/rollout-map. If so, you agree that Commander will transition your services when they become ready for service to the nbn network. Your service will be

migrated to nbn on the same terms and conditions as your then-current contract. Standard installations are completed without charge to you. Non-standard, additional or subsequent installations including but not limited to NBN Professional Install or Valet Offerings may require you to pay additional charges. Any cabling that is required in your premises beyond the Network Boundary Point is your responsibility. Once you have upgraded to the nbn network you will not be able to move back to a copper service.

STANDARD INSTALLATION REQUIREMENTS

You are required to install the handset(s) supplied with your Commander Phone service, including any associated cabling, network configuration and any routers and/or switches within your network to allow the Commander Phone service to work. Valet Install for your Commander Phone Service is available at an additional charge, for more information please speak to your Commander representative or call Customer Service on 132 777.

HARDWARE

You will be supplied with an IP handset at no cost whilst your service is with Commander. Supporting Internet connectivity hardware is required to use this service. You may use your own modem or a Business Gateway can be provided - see 'Information about Pricing'. The Business Gateway is pre-configured, customer self-installed and includes instant activation with 4G Backup. 4G Backup provides an alternative Internet connection for web browsing (max. speeds up to 12/1 Mbps) and Internet telephony calls when your fixed Internet service has failed or is waiting to be activated (not available in all areas).

For more information: commander.com.au/support/internet-bundles/business-continuity. Please note, support is only available for Commander approved modems. For a list of approved modems, call Customer Service on 132 777. A 240 volt power supply is required.
