If you use this service in conjunction with the optional Business Gateway hardware and a Commander Internet service on the same account, our Business Continuity feature is enabled free of charge.

Smart Voice may not be appropriate if you require an uninterrupted phone service with access to 000 emergency services. The service will not function in the event of a power failure unless provided over the voice port (UNI-V) of the NBN connection box with an operational thirdparty supplied battery back-up unit. It is your responsibility to maintain the battery and ensure that it is working correctly. Priority Assistance is not available on this service.

You must inform us if the service is intended to be used in conjunction with a disability or medical service, back to base alarm or is intended to carry data services such as Fax, EFTPOS or HiCaps. These services may not be supported or may require an alternative service or additional equipment.

Calls to some International destinations are blocked by default due to high risk of fraud. You may arrange with Commander to unblock these destinations upon accepting full responsibility for payment for any calls from your service to these destinations.
